

**Please consider referral
for heart transplant or
Ventricular Assist Device (VAD)
to
Scottish Advanced
Heart Failure Service
VADS are now available in Scotland**

**Many more patients in Scotland could benefit from
a heart transplant or a ventricular assist device (VAD).**

Does your patient fit these criteria?

- Under 65 years of age
- Acute heart failure
- Chronic heart failure

There are very few absolute contra-indications:

Severe irreversible, kidney, liver, lung or neurological disease
Morbid obesity

Acute kidney or liver failure often improves with treatment

We welcome an early discussion about suitable patients.
Please contact the Scottish Advanced Heart Failure Service
at the Golden Jubilee National Hospital on 0141 951 5340.
